Center	Country	Courses Given 1999-2001	Trainers Trained	Who provided the training	If training not provided by Collaborating Center, did Centre provide resources to support the training	Training Materials Used	Courses Planned 2001-2002
Paris	France	1 ICD-10 course in Quebec and 1 course in Le Vesinet	No	Collaborating Staff and Inserm Staff	N/a	Tendon in French	N/a
Moscow	Russia	26 courses in different regions of Russian Federation with more than 2500 students and 2 courses for CIS countries with 49 students	Yes	Collaborating staff, Demographical Statistics and Clinical specialist	N/a	Guides for training the specialists to work with ICD-10, The tables of comparability between ICD-9 and ICD-10 of causes of death	Refreshment coding of ICD-10 and Implementation of ICIDH
North America	Canada	3 ICD courses with 24 students	No	Statistics Canada	No	NCHS Instruction Manuals Part 2a, Part 2b, Part 2c and Part 2e, Volumes 1 and 3 and related classroom exercises	None at this time
North America	US	One international class in 1999 for multiple causes I think. We were not satisfied with the presentation at all. (1) We did not give enough time for student to make plans to attend the class. (2) We found out that our normal 2 weeks class is too fast for international students. Therefore, in 2001, we offered	Yes	NCHS Staff	Yes	Preclassroom book 1 and book 2: medical terminology and anatomy and introduction to the WHO Volumes 1 and	Possibly 2 classes in 2001. Also possible advanced courses in both coding.

		<p>Therefore, in 2001, we offered (or are offering) three (3) week classes, which give us enough time to present the material which students, need to learn and to present our training material. The Multiple Cause class was given March 12 – 30. The Underlying Cause class is scheduled for September 10 – 28. One week training in our software and other issues related to automation follows both classes.</p> <p>In addition, out trainers, Julia Raynor and Tanya Pitts did a modified international multiple causes coding class in Sweden. This course was one week and concentrated on more advanced coding instructions than was covered in the basic multiple cause class</p>				<p>3. Classroom example books Post classroom training decks (or examples)</p>
